

Powerful QAP30 Pine Disinfectant

This non-bleaching product is suitable for:

- Disinfection of drains, sinks, toilets and urinals.
- Disinfection of nappies, sickroom linen and handkerchiefs.
- Disinfection of floors, walls, tiles and other washable surfaces.
- Cleaning and freshening.
- Protecting against bacteria.

HOW TO USE:

Dilutions should be freshly and accurately prepared in clean containers.

Heavily soiled articles should be rinsed clean before being disinfected.

To disinfect floors, walls, tiles and other washable surfaces, dilute 1 part disinfectant to 30 parts cold water.

To disinfect toilets, sinks and drains pour 120ml undiluted disinfectant around the toilet bowl or down sinks and drains.

To disinfect nappies, sickroom linen, and handkerchiefs before washing, dilute a solution of 1 part disinfectant to 30 parts of cold water.
